

## MEDIA RELEASE

### MASwings Flights Restored

1<sup>st</sup> July 2020, Kota Kinabalu: MASwings enters its 2<sup>nd</sup> phase of the planned reinstatement of its reduced frequencies and temporary suspended flights effective today to gradually meet the normal schedule as per the Public Service Obligation (PSO) Agreement by end October this year.

MASwings reduced its flight frequencies and suspended some of its rural operations following the nationwide Movement Control Order imposed since 18 March 2020 due to Covid-19 pandemic. Since the Recovery Movement Control Order (RMCO) in Malaysia took effect on 10 June 2020, most major travel restrictions have been lifted with conditions and exceptions imposed by respective States authorities and this allows airlines including MASwings to re-visit its operations to meet passengers' travel requirement.

Effective today MASwings will be operating up to 59% and 81% from its normal flight patterns on ATR72-500 and Viking DHC6 Twin Otter, respectively as per below schedule:
